

Fastest growing Layer-1

About **Ultron**

- 30+ months of development
- The **First and Only Layer-1 blockchain** with its own native applications (Eco-System)
- **40+ Senior Developers**
- EVM - compatible
Highly scalable
Low transaction fees

INTRODUCTION

Let's talk about crypto

Crypto Market Growth

Can you afford to miss it, **again?**

Layer-1 Networks	Initial Price	All time high	Growth
 Ethereum	0,30\$	4.878\$	x16.260
 BNB	0,20\$	688\$	x3.440
 Solana	0,20\$	259\$	x1.295
 Fantom	0,01\$	3.46\$	x346
 Avalanche	0,50\$	144\$	x288
 Cardano	0,02\$	2.96\$	x148
 Harmony	0.003\$	0.37\$	x123
 Ultron	0,01\$???

AUDITS

AUDIT SUMMARY

ULTRON Ultron Foundation is building a new decentralized autonomous organization that manages the transfer of ERC20, ERC721, and ERC1155 tokens between chains.

For this audit, we reviewed the project team's contracts at commit [954759172723a176746c13aa3333b917d2a790c](https://github.com/ultronfoundation/ultron-dev/commit/954759172723a176746c13aa3333b917d2a790c) on the team's GitHub repository.

AUDIT FINDINGS

Please ensure trust in the team prior to investing as they have some control in the ecosystem.
 Date: May 20th, 2022

Finding #1 - DAO - Low

Description: `setBridgeContractId()` can be called externally by anybody.
Risk/Impact: If the `BridgeContract` address is not set immediately, there is a risk that it will be set to an unknown contract or address.
Recommendation: The team should restrict the use of this function.
Resolution: The team has not yet addressed this issue.

CONTRACTS OVERVIEW

- As the contracts are implemented with Solidity v0.8.11, they are safe from any possible overflows/underflows.

Mining vs Staking

Mining

5 year mining plan

Expenses (12 months):

- 10.000 USDT (hardware)
- 2.500 USDT (electricity)
- 2.500 USDT (renting space)

ROI:

(12 months)

= 0,00 USDT

With mining profit you cover all expenses and start earning after 12 months.

After 5 years:

10.000 USDT hardware is worth
0 USDT and your profit depends on
electricity and renting space costs.

Staking

5 year staking plan

Expenses (12 months):

- 10.000 USDT (Staking Hub NFT)
- 0 USDT (electricity)
- 0 USDT (renting space)
- = 100.000 ULX

0,10\$
ULX Market
Price

ROI:

(12 months)

= 100.000 ULX + 100.000 ULX
= **200.000 ULX (100.000 USDT)**

0,50\$
ULX Market
Price

*Profit is your profit.
There are no hidden costs.*

After 5 years:

100.000 ULX + up to **300% ULX rewards**
400.000 ULX coins = \$\$\$ (depends on price)

Mining vs Staking

We are going to talk about money but-1. We are NOT financial promoters. 2. We DON'T talk about investments. The following presentation is just to disseminate and is NOT to provide suggestions on financial products and for public money saving. Ultrun is not a financial advisor, does not suggest financial tips of any type, neither collects investments from appointed personnel and/or clients. For this reason, Ultrun does not care about possible ROIs, automated or not, or other public saving activities. This kind of declaration and/or example shown in the compensation plan represents a simple evaluation of how much an affiliate could generate or gain at the beginning and must not be intended as a guarantee of gain. Each member must develop his/her proper assessment before joining our community and private club, indeed no certainty is assured for the member to reach results and objectives in his/her career and/or profits. Everything is related to the commitment and the perseverance put in place for a consistent period of time and from the token sales volumes developed by the affiliate along with his/her team; in addition, some unpredictable external factors could affect results, objectives, independently from the affiliate's commitment. This presentation along with compensation plan are copyrighted and IP rights protected. Any unauthorized use will be prosecuted by law. If circumstances require, Ultrun reserves rights to change compensation plan in any part at any time. It is strictly forbidden to change this document without written approval from Ultrun. We suggest to check official site to have the most recent version of this product. Any affiliate violating company policy and/or promises easy gains and/or talks about investments and/or Return Of Investments of any types, or carries out a promotion campaign not completely clarified and not misleading will be immediately suspended and excluded from the project promotion.

Ultron roadmap 2020 - 2024

Explorer Phase Q2 2020 - Q4 2021

- Creation of idea
- Founding team created
- Testing of existing blockchains

Luna Phase Q1 2022

- Lightpaper V1.0
- Beta Testing of ULX testnet
- Private sale of staking hub NFTs

Luna Phase Q2 2022

- Ultron website launch
- Whitepaper V1.0
- ULX blockchain main-net launch
- Blockchain explorer

Apollo Phase Q3 2022

- 5 cross-chain bridges
- Ultronswap launch
- Layer 1 optimizations
- Smart contract audits

Mariner Phase Q3 2023

- 1st halving of the NFT rewards (0.1%)
- Additional CEX and DEX
- Ultron Team expansion
- Adding marketing influencers

Mariner Phase Q2 2023

- NFT bridge platform
- NFT marketplace
- Smart contract templates for BC developers

Mariner Phase Q1 2023

- Developers incentive program
- NFT bridge platform
- NFT marketplace
- DEX and CEX listings

Pioneer Phase Q4 2022

- Public BC catalogs listings
- UI for delegating ULX
- First NFT collection drop
- Metamask integration
- Lending & borrowing dApp

Venera Phase Q4 2023

- Expected Milestone: 500 thousand users
- Add more trending Dapps
- Work on the Tron bridge

Venera Phase Q1 2024

- Significant team extension
- Solana bridge

Stardust Phase Q2 2024

- Financial institutions onboarded

Rosetta Phase Q3 2024

- Halving of staking hub rewards (0.05%)
- 1 million active users of the platform
